

If You Give An Elfengineer A Pencil

A Cheery
Elfengineer Tale
By

ReidMiddleton

If you give an elfgineer a pencil,
they'll want to design something
right away, like a new workshop,
or a road, or some piers,
so ...

they'll ask you for
some drafting paper.

When they've finished their designs,
they'll think of all the calculations
they need to make, and ...

they'll ask you for
an HP calculator.

finishing their last calculation,
they'll want to take
a coffee break,
and ...

ask you for some snacks.

As they eat their snacks,
they'll look out the window
and want to walk the site,
so . . .

they'll put on a pair
of insulated snowboots.

As they trudge through the snow,
they'll come up with new ideas,
rush back in and ask you for a pencil.

And if they get a pencil...

they'll ask you for
some drafting paper.
